Pottery making is the craft of shaping and creating objects from clay, which are then fired at high temperatures to harden and finish them. The process generally involves several key steps: preparing the clay, shaping it into the desired form (often on a pottery wheel), drying, and then firing it in a kiln. Glazing, the application of a glass-like coating, may be used before the final firing to add color and finish to the pottery. Pottery making has a rich history, varying significantly across different cultures, and it remains both a popular hobby and a significant art form.

REPORT ON CRAFTING WITH WASTE

Date: 19/12/2022

Crafting with waste, also known as upcycling, is a creative and environmentally friendly practice where discarded materials or waste products are transformed into new, valuable items. This approach not only reduces waste going to landfills but also fosters creativity and innovation. Common materials used include plastic bottles, old clothes, paper, and glass, which are repurposed into items like home decor, jewelry, or functional objects. Crafting with waste not only benefits the environment but also helps in raising awareness about sustainability and resource conservation

REPORT ON DASHARUPAK

Date: 13-12-2022

The Dasharupak event, a significant cultural or theatrical show, successfully concluded with impressive ticket sales. We decided to donate the entire amount earned from ticket sales to a charity focused on supporting orphans. This generous contribution not only highlighted the event's success, attendees to social responsibility and community support. The event thus served a dual purpose: providing entertainment and cultural enrichment while also making a meaningful impact on the lives of underprivileged children.

REPORT ON COMMUNITY SERVICES BY STUDENTS TO HANDICAP

Date: 1/12/2022

Community service by students for their handicapped peers often involves activities aimed at improving the quality of life, accessibility, and educational opportunities for these individuals. These services can include tutoring, assisting with mobility or daily tasks, creating inclusive events, and raising awareness about disabilities. Such efforts not only provide valuable support to handicapped students but also foster empathy, understanding, and inclusivity within the student community. This form of service is an enriching experience that benefits both the volunteers and their peers, promoting a more compassionate and accommodating environment.

REPORT ON ART AND CRAFT ACTIVITY

Date: 10/11/2022

Art and craft represent two distinct but often overlapping realms of creativity. Art is typically focused on expressing personal or emotional perspectives, often prioritizing aesthetics and originality. It includes various forms such as painting, sculpture, and performance art. Craft, on the other hand, is more oriented towards skilled creation of functional or decorative items like pottery, woodworking, or textile arts. While art is often about conveying a vision or a feeling, craft emphasizes technique and utility. Both art and craft have rich histories and are valued for their contribution to culture and society.

ACADEMIC YEAR 2022-23
KNOWLEDGE SHARING PROGRAM

Knowledge Sharing:

Initiated in 2017, this program aims to disseminate knowledge in remote areas, particularly targeting underprivileged communities.

The operational details: It involves forming student groups tasked with obtaining permission from government schools to conduct educational sessions. Once permission is secured, students diligently prepare by choosing topics, creating teaching aids, and acquiring refreshments and gifts for the school children.

The teams select age-appropriate topics to impart knowledge to government school students, focusing on creating awareness and instilling good habits. The primary goal of these classes is to educate children about the significance of positive behaviors.

Implementation of the program: In their endeavor to enhance the appeal and informativeness of their classes, students diligently craft teaching tools and instruments. This includes the creation of posters, PowerPoint presentations, and models. Additionally, the classes incorporate engaging elements such as games, quizzes, and plays to make the learning experience more interesting. Following the conclusion of the teaching session and interactive activities, students distribute refreshments and small prizes to the winners.

The essence of the knowledge-sharing program is that it integrates Siva Sivani students into community service. Actively participating in raising awareness and fostering interest among underprivileged children, the initiative focuses on educating them about good habits, positive behavior, maintaining healthy conditions, and promoting access to good and hygienic food.

Conclusion: As the day concluded, students actively engaged in social service programs, visiting nearby schools to identify the needs of learners. Consequently, they designed knowledge-sharing programs, acquiring the necessary skills for social upliftment. This stands as a significant achievement for Siva Sivani students.

COMMUNITY SERVICES
"Helping Hands" Charity by SSDC

Commencement and Initiatives:

Continued Efforts Amidst the Pandemic:

In 2020, despite pandemic challenges, students persisted in various activities such as road paintings and wall paintings. In 2021, efforts extended to collecting used clothes, stationary items like notebooks, pens, pencils, and essential food items for those in need.

In 2022, students actively advocated charity initiatives, designating every Tuesday as Charity Day. The committee coordinated fund collection, and the raised funds were utilized to purchase necessary items for orphanages and old age homes, fulfilling their requirements. Even students helped the children whose parents got affected by AIDs.

Students Take Home: Students demonstrate commendable participation in rendering services as they distribute groceries, food items, snacks, stationary, books, pens, pencils, writing pads, and clothes every Tuesday.

Siva Sivanians, recognize, practice concern for the underprivileged. It has been our culture to consciously indulge in practices that help us to reach the poor, the orphans and old age homes. We instill the same spirit in our students, to show empathy, sympathy to those who need our help. Once we recognized this cause, we educated our students on how to set aside some money which could be donated to the poor. This contribution, though a negligible one to each student will be a big help to the affected.

We, Siva Sivanians, practically extended this activity into wings and approached an orphanage and some old age homes. We feel Tuesday as very auspicious and considered the same as bestow and planned to donate something as a charity for this cause, four lecturers were coordinators, these lecturers inspired the students to share and contribute to the society from the sum of their pocket money and help the needy as a part of the same, each student donated some amount as charity. These were collected by our lecturers along with the student representatives and visited few old age homes and orphanages and It is an appreciable effort by our students in recognizing how to serve and contribute to the society in different ways and how to stir up to concern in students as an institution. This institutional concern is a central force to propel youth towards the future.

PROGRAM REPORT

Date: 29-10-2022

1. Name of the Program: **COMMUNITY SERVICES**

2 Program Date: 28-10-2022

3. Report submitted date: 29-10-2022

Brief description about the event:

Siva Sivanians, recognize, practice concern for the underprivileged. It has been our culture to consciously indulge in practices that help us reach the poor, the orphans. We instill the same spirit in our students, to show empathy, sympathy to those who need our help. Once we recognize this cause, we educated our students on how to set aside some money which could be given to the poor. This contribution, though a negligible one to each student will be a big help to the affected.

We, Siva Sivanians, practically extended this activity into wings and approached an orphanage. Four lecturers were coordinators, they inspired the students to share and donate a sum from their pocket money and purchased **Milkshakes**. These were collected by our lecturers along with the student representatives and visited the orphanage and donated to the needy. This, is an appreciable effort of our students in recognizing how to serve and contribute to the society in different ways and how to stir up to concern in students as an institution. This institutional concern is a central force to propel youth toward the future.

PROGRAM REPORT

Date: 23-12-2022

1. Name of the Program: **COMMUNITY SERVICES**
2. Program Date: from **21-12-2022**.
3. Report submitted date: **23-12-2022**

Brief description about the event:

Siva Sivanians, recognize, practice concern for the underprivileged. It has been our culture to consciously indulge in practices that help us reach the poor, the orphans. We instill the same spirit in our students, to show empathy, sympathy to those who need our help. Once we recognize this cause, we educated our students on how to set aside some money which could be given to the poor. This contribution, though a negligible one to each student will be a big help to the affected.

We, Siva Sivanians, practically extended this activity into wings and approached an orphanage . Four lecturers were coordinators, they inspired the students to share and donate **15 Kgs oranges and 15 Dozens Bananas**. These were collected by our lecturers along with student representatives and donated to the needy. It is an appreciable effort by our students in recognizing how to serve and contribute to society in many ways and how to stir up to concern in students as an institution. This institutional concern is a central force to propel youth towards the future .
