MANAGEMENT OF THE VARIOUS TYPES OF DEGRADABLE & NON-DEGRADABLE WASTE

In order to keep the college in pristine condition & to provide a conducive environment for academic and non-academic interests. We follow good hygienic practices as well as a comprehensive waste management plan. The core concern is to reduce, reuse and recycle wastes generated in the college.

The college has well maintained and pollution free environment because of meticulously following the green and waste management systems

Wastewater Treatment Utilization

Water is the basic necessity of life used for many purposes & recycling waters is necessary. Wastewater treatment utilization involves the effective and responsible use of treated wastewater for various purposes, thereby promoting sustainability and minimizing environmental impact.

Considering this is our mind, we have established sewage treatment in Siva Sivani degree college.

STORING E-WASTE

Siva Sivani Degree College has very efficient mechanism to dispose E wastes generated from various sources.

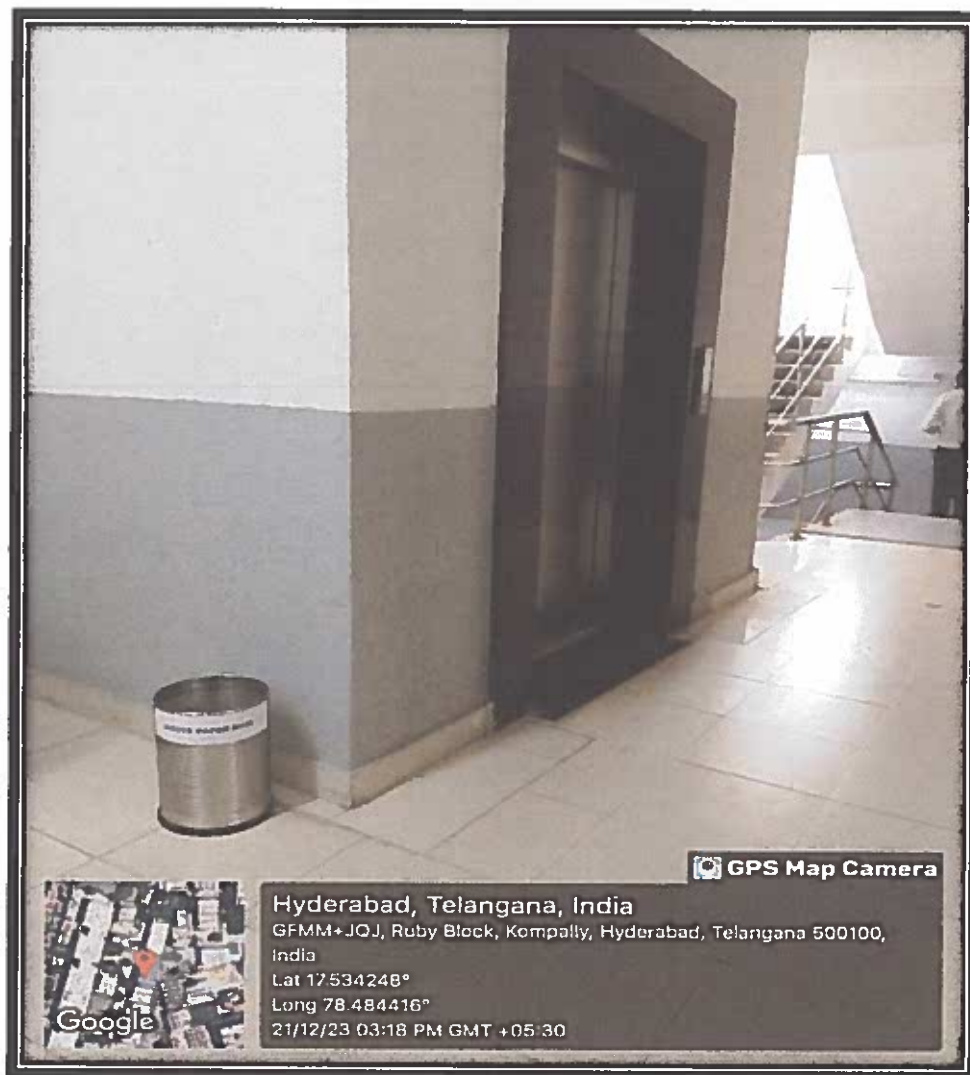

All E-Wastes such as computer, its accessories and all electronic wastes are collected and discarded through the authorized vendor to ensure no hazard to the environment. E-waste contains hazardous materials, and improper handling can pose risks to human health and the environment. Keeping this in mind Storing electronic waste (e-waste) in college are kept with careful consideration of environmental regulations, safety measures, and waste management best practices.

WASTEPAPER BINS

Each department of Siva Sivani Degree College dumps the waste in small waste-bins located in the department. The effective wastepaper management strategies are implemented in this college, so that it can contribute to a cleaner and more sustainable environment while fostering a culture of responsibility among students and staff.

RAIN WATER HARVESTING PIT

Rainwater Harvesting is the most economical and smart way to tap water resource. It keeps the college free from water scarcity. Harvesting rainwater can help conserve water resources, reduce utility bills, and promote self-sufficiency. contributes to sustainable water management but also serves as an educational tool for promoting environmental awareness. Rainwater is collected through pipes.
