Report of the Program

Verbal Communication

Name of the Resource Person : Mr. Laxman
Date : 26-10-2021
Venue : Class Room
No. of Students Attended : 144

On 26-08-2022, a lecture on “Verbal Communication” was held for Final Year students of Siva Sivani Degree College. The lecture was delivered by the Resource person Ms. Sharon Ann.

Verbal communication means effectively presenting your thoughts in verbal format i.e., by talking. Verbal communication skills are essential in the world of business. Be it a weekly meeting or presentation to stakeholders, the importance of verbal communication is unparalleled. People always remember a person who speaks clearly, effectively, confidently, and charismatically.

For instance, Apple co-founder Steve Jobs’s speech launching the iPhone is a classic example of brilliant verbal communication that people remember even today. Similarly, many speeches made by former US President Barack Obama are also unforgettable. A powerful speaker is also able to connect with their audience easily. Like Oprah Winfrey says, “Great communication begins with a connection.”

Before we explore the various defining features of verbal communication, let’s look at its primary form. Verbal communication is oral in nature. Oral communication encompasses various activities such as talking, laughing or listening. We often navigate different emotional situations through oral forms of communication.

We also have written communication that includes script, alphabets, acronyms, logos and graphics. To interpret written messages, everyone involved must understand the code (e.g., the language). This is different from verbal or spoken communication.

There Are Several Characteristics That Are Specific to Verbal Communication, namely:

1. The Message Being Communicated Is Directly or Indirectly Related to An Object
2. We Use Concepts to Communicate Messages
3. The Content Should Be Understood by Both the Sender and Receiver

Mamatha

4. Cultural Factors Influence the Content of Messages
5. While Communicating Emotions and Feelings, A Sender's State of Mind Influences

Even though we talk to our friends, family and co-workers on a regular basis, we may not always be aware of how we're communicating. Mastering the art of verbal communication will help you in more ways than one. Let's explore different types of verbal communication and how your audience factors into it.

Types of Verbal Communication

Verbal communication goes beyond words, sounds and languages. You need to know your audience to talk to them better. Remember that you can follow the Pyramid Principle and start with your main argument and then follow up with supporting statements. You can classify verbal communication into four types based on your audience.

1. Intrapersonal Communication

This is your private verbal communication channel. You talk to yourself and articulate your thoughts. Communicating with yourself will give you more confidence and clarity in your thoughts. It'll help you make up your mind, form your sentences, find suitable words and effective ways to connect with other people. This will help you gain your colleagues' trust in the workplace.

2. Interpersonal Communication

You can also call this one-to-one verbal communication. This type of communication happens between two individuals. It helps you understand if you're getting your thoughts across clearly. Reactions, responses and verbal and nonverbal cues from the other person will help you understand whether you're being understood or not. Make sure that you listen to the other person intently. Communication doesn't just mean to talk to someone. It's also about listening. So, listen, think and then respond. Take time to think and make sure you don't offend people with your response.

3. Small Group Communication

The number of people increases in small group communication. You move from communicating with a single participant to a few more. These small groups could be team meetings, board meetings or sales

meetings. The number of participants is small enough for everyone to communicate with each other. When you attend small group meetings, be prepared with a topic to make sure you stay on track. Stay on topic and allow enough time for everyone to present their thoughts.

4. Public Communication

You may also know this type as 'public speaking'. Here, an individual addresses a large number of people at once. Speeches, election campaigns and presentations are a few examples of public communication. Since the number of people in the audience is larger in this type of communication, be sure to use words and phrases they'll understand easily and structure your thoughts before addressing the audience. The more prepared you are, the more confident you'll feel like a public speaker.

On 17-12-2022, a guest lecture on "Psychometric Analysis" was held at seminar hall for students of Siva Sivani Degree College. The lecture was delivered by the Resource person **Mr. P. Kesava Giri**. Siva Sivani Degree College recently conducted a comprehensive Psychometric Analysis for its students to gain valuable insights into their individual strengths, preferences, and areas for development. This analysis aimed to provide students with a deeper understanding of themselves, aiding in academic and career decision-making.

Insights into how personality traits may influence academic and career choices.

Aptitude and Cognitive Abilities:

Evaluation of students' cognitive abilities, including numerical, verbal, and spatial reasoning.

Identification of areas of strength and potential areas for improvement in academic pursuits.

Interests and Preferences:

Assessment of students' interests in various fields and professions.

Trained counselors interpreted the findings, addressed questions, and helped students connect the insights to their academic and career goals.

Key Findings:

The psychometric analysis yielded valuable insights into the students' personalities, aptitudes, and interests. Some key findings included:

Identification of dominant personality traits and their potential impact on academic and career choices.

Recognition of specific cognitive strengths and areas for improvement.

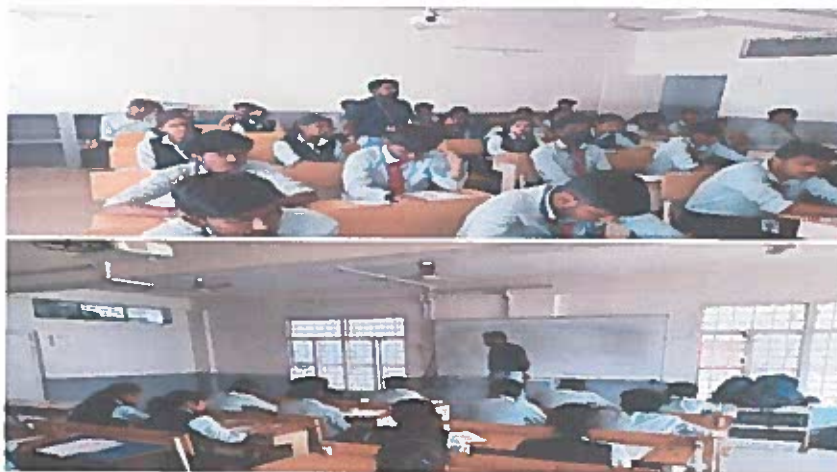

Clarification of personal interests and their alignment with potential career paths.

Feedback from Students:

The Versant tests are a series of spoken language proficiency assessments designed to evaluate individuals' ability to understand and produce spoken English. These tests are developed by Pearson, a leading education and assessment company. The Versant assessments are commonly used in academic, corporate, and government settings to measure language skills for various purposes.

Here are some key features of the Versant tests:

Versant English Test (VET):

This test evaluates a person's ability to understand and communicate in English. It assesses speaking, listening, and reading skills.

The test is administered entirely by a computer and uses advanced speech processing technology to analyze spoken responses.

VET is often used in academic settings for admissions and placement purposes.

Versant English Placement Test (VEPT):

The VEPT is designed for educational institutions to assess students' English language proficiency and place them into appropriate language courses.

It focuses on listening, speaking, reading, and writing skills.

Versant English Test - Advanced (VET-Advanced):

This is an advanced version of the Versant English Test, targeting higher proficiency levels.

VET-Advanced is often used in professional settings to assess language skills for hiring or training purposes.

Versant Business English Test (BET):

The BET is specifically designed to assess English language proficiency in a business context.

It evaluates communication skills relevant to the workplace, including business vocabulary and scenarios.

NEWS PAPER READING SESSION

Name of the Resource Person : Ms. Safina Tarunnam

Date : 20-01-2022

Venue : Seminar Hall

No. of Students Attended : 144

On 15-12-2022, a guest lecture on “News Paper Reading Session” was held at seminar hall for students of Siva Sivani Degree College. The lecture was delivered by the Resource person Ms. Safina Tarunnam. Newspaper Reading Sessions at our institution have been instrumental in fostering the communication and interactive skills of each participant within the classroom setting. This activity serves as a valuable platform for students to stay abreast of current events and news while simultaneously honing critical thinking abilities and broadening their knowledge across diverse subjects.

Engaging in discussions on news articles with fellow students and actively participating in group activities has proven to be an effective means for students to delve deeper into global issues and understand their ramifications on society. Beyond merely staying informed, this class activity prompts students to formulate their own opinions, fostering a culture of independent thought and encouraging them to partake in meaningful and intellectually stimulating discussions.

In essence, the Newspaper Reading Sessions contribute significantly to the intellectual growth and development of our students. It is through these sessions that they not only stay informed but also cultivate the skills necessary for thoughtful analysis, effective communication, and the formation of well-grounded perspectives.
