## Report of the Program

### NEWS PAPER READING SESSION

**Name of the Resource Person** : Ms. Mary Leena  
**Date** : 26-08-2022  
**Venue** : Seminar Hall  
**No. of Students Attended** : 112

On 26-08-2022, a guest lecture on "News Paper Reading Session" was held at seminar hall for students of Siva Sivani Degree College. The lecture was delivered by the Resource person MS. Mary Leena.

Newspaper Reading Sessions at our institution have been instrumental in fostering the communication and interactive skills of each participant within the classroom setting. This activity serves as a valuable platform for students to stay abreast of current events and news while simultaneously honing critical thinking abilities and broadening their knowledge across diverse subjects.

Engaging in discussions on news articles with fellow students and actively participating in group activities has proven to be an effective means for students to delve deeper into global issues and understand their ramifications on society. Beyond merely staying informed, this class activity prompts students to formulate their own opinions, fostering a culture of independent thought and encouraging them to partake in meaningful and intellectually stimulating discussions.

In essence, the Newspaper Reading Sessions contribute significantly to the intellectual growth and development of our students. It is through these sessions that they not only stay informed but also cultivate the skills necessary for thoughtful analysis, effective communication, and the formation of well-grounded perspectives.

The Versant tests are a series of spoken language proficiency assessments designed to evaluate individuals' ability to understand and produce spoken English. These tests are developed by Pearson, a leading education and assessment company. The Versant assessments are commonly used in academic, corporate, and government settings to measure language skills for various purposes.

Here are some key features of the Versant tests:

**Versant English Test (VET):**

This test evaluates a person's ability to understand and communicate in English. It assesses speaking, listening, and reading skills.

The test is administered entirely by a computer and uses advanced speech processing technology to analyze spoken responses.

VET is often used in academic settings for admissions and placement purposes.

**Versant English Placement Test (VEPT):**

The VEPT is designed for educational institutions to assess students' English language proficiency and place them into appropriate language courses.

It focuses on listening, speaking, reading, and writing skills.

**Versant English Test - Advanced (VET-Advanced):**

This is an advanced version of the Versant English Test, targeting higher proficiency levels.

VET-Advanced is often used in professional settings to assess language skills for hiring or training purposes.

**Versant Business English Test (BET):**

The BET is specifically designed to assess English language proficiency in a business context.

It evaluates communication skills relevant to the workplace, including business vocabulary and scenarios.
